Disclosures

To receive a distribution, you must be a registered shareholder of the fund on the record date. Distributions are paid to shareholders on the payment date. There is no guarantee that capital gains distributions will not be made in the future. Your own trading will also generate tax consequences and transaction expenses. Past distributions are not indicative of future distributions. Please consult your tax professional or financial adviser for more information regarding your tax situation.

Investing involves risk, including the possible loss of principal. Narrowly focused investments and investments focusing on a single country may be subject to higher volatility.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the funds. Brokerage commissions will reduce returns.
