

REASONS TO CONSIDER

**Long-Term Growth Potential**

Humans are living longer than ever, with forecasts suggesting the global population of adults age 60+ could double to more than 2bn by 2050.⁽¹⁾

**Demographics Drive Consumption**

With a ballooning senior population, particularly in western countries, we expect to see waves of innovation catering to seniors' distinct consumer preferences.

**Unconstrained Approach**

The Aging Population theme is a global trend, affecting a wide range of industries. AGNG invests accordingly, offering exposure to companies regardless of sector or geographic classification.

Index	1.77%	5.90%	9.26%	0.56%	8.14%	9.83%

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

DEFINITIONS

Indxx Aging Population Thematic Index	The Indxx Aging Population Thematic Index is designed to track the performance of companies listed in developed markets that are expected to directly or indirectly contribute to increasing the life-spans of the senior population of the world. The index provides access to companies involved in biotechnology, medical devices, pharmaceuticals, senior living facilities and specialized health care services, which respond to the needs of this demographic.
---------------------------------------	---

(1) WHO, Oct 2022

(2) AGNG traded under the ticker LNGR from inception until April 1, 2021.

Investing involves risk, including the possible loss of principal. The investable universe of companies in which AGNG may invest may be limited. The Fund invests in securities of companies engaged in Healthcare, Pharmaceutical, Biotechnology and Medical Device sectors. These sectors can be affected by government regulations, expiring patents, rapid product obsolescence, and intense industry competition. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from social, economic or political instability in other nations. AGNG is non-diversified. The information provided is not intended for trading purposes, and should not be considered investment advice.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund's full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Beginning October 15, 2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates current NAV per share. Prior to October 15, 2020, market price returns were based on the midpoint between the Bid and Ask price. NAVs are calculated using prices as of 4:00 PM Eastern Time. The returns shown do not represent the returns you would receive if you traded shares at other times. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.

Global X Management Company LLC serves as an advisor to the Global X Funds. The Funds are distributed by SEI Investments Distribution Co.
