

REASONS TO CONSIDER

High Growth Potential

Forecasts suggest the global Health & Wellness market could grow from nearly \$4.8tn in 2022 to more than \$7.5tn by 2030.⁽¹⁾

New Consumer Preferences

The pandemic forced many to re-think their fitness habits. This included a potential broadening of the market for in-home workout equipment, as well as a changing of norms around apparel (e.g., popularity of “athleisure” wear).

Unconstrained Approach

Health & Wellness is a global theme, touching multiple aspects of a consumer’s lifestyle. BFIT invests accordingly, offering exposure to companies regardless of industry or geographic classification.

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Beginning October 15, 2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates current NAV per share. Prior to October 15, 2020, market price returns were based on the midpoint between the Bid and Ask price. NAVs are calculated using prices as of 4:00 PM Eastern Time. The returns shown do not represent the returns you would receive if you traded shares at other times. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
