CATH Global X S&P 500 Catholic Values ETF

KEY FEATURES

Invest in Values
CATH excludes companies involved in activities perceived to be inconsistent with Catholic values as set out by the U.S. Conference of Catholic Bishops, including screens for weaponry and child labor.

Minimize Tracking Error
By providing exposure only to companies engaged in activities consistent with Catholic beliefs (through the S&P 500 Catholic Values Index), CATH seeks to minimize tracking error by matching the sector weightings of the broader S&P 500.

ETF Efficiency
CATH allows investors to buy and sell a broad basket of U.S. equities that conform with Catholic guidelines, with the tax efficiency of an ETF.

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance of the Fund, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

Investing involves risk, including the possible loss of principal. CATH’s consideration of the Guidelines in its investment process may result in choices not to purchase, or sell, otherwise profitable investments in companies that have been identified as being in conflict with the Guidelines. This means that the Fund may underperform other similar funds that do not consider the Guidelines when making investment decisions. The information provided is not intended for trading purposes, and should not be considered investment advice.

Carefully consider the Fund’s investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund’s full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Beginning October 15, 2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn’t available, the midpoint between the national best bid and national best offer (“NBBO”) as of the time the ETF calculates current NAV per share. Prior to October 15, 2020, market price returns were based on the midpoint between the Bid and Ask price.
