The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short term performance of the fund is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.
