<sup>1</sup>Expense Ratio: Pursuant to an Expense Limitation Agreement, the Adviser has contractually agreed to reimburse or waive fees and/or limit Fund expenses to the extent necessary to assure that the operating expenses of the Fund will not exceed 0.23% of the Fund's average daily net assets per year until at least April 1, 2021

<sup>2</sup>Distribution Yield: The annual yield an investor would receive if the most recent fund distribution remained the same going forward. The yield represents a single distribution from the fund and does not represent total return of the fund. The distribution yield is calculated by annualizing the most recent distribution and dividing by the NAV.

<sup>3</sup>12-Month Dividend Yield: The yield an investor would have received if they had held the fund over the last twelve months assuming the most recent NAV. The 12-Month yield is calculated by summing any income distributions over the past twelve months and dividing by the NAV.

<sup>4</sup>30-Day SEC Yield: A standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons among funds. This figure reflects the interest earned during the period after deducting the fund's expenses for the period.
