VPN
Global X Data Center REITs & Digital Infrastructure ETF

REASONS TO CONSIDER

High Growth Potential
Global data center investments are expected to increase from $321bn in 2022 to $410 billion in 2025 to support the growth of 5G, smart grids, and other forms of tech-based infrastructure. (1)

Global Tailwinds
The shift to 5G-enabled devices is well underway. 5G subscriptions worldwide are expected to surpass 1.5bn in 2023 and over 3.5bn by 2026. (2) Accelerated development of digital infrastructure is necessary to support this growth.

REIT Exposure
VPN invests in REITs, among other holdings, an asset class that has historically provided high income potential.

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. Click here for standard performance as of the most recent quarter-end.

SECTOR BREAKDOWN (%)

- Real Estate 62.53%
- Information Technology 29.40%
- Communication Services 8.07%

Investing involves risk, including the possible loss of principal. The investable universe of companies in which VPN may invest may be limited. Data Center REITs and Digital Infrastructure Companies are subject to risks associated with the real estate market, changes in demand for wireless infrastructure and connectivity, rapid product obsolescence, government regulations, and external risks including natural disasters and cyberattacks. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from the differences in generally accepted accounting principles or from social, economic or political instability in other nations. VPN is non-diversified. The information provided is not intended for trading purposes, and should not be considered investment advice.

Carefully consider the Fund’s investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund’s full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. The market price returns are based on the official closing price of an ETF share or, if the official closing price isn’t available, the midpoint between the national best bid and national best offer (“NBBO”) as of the time the ETF calculates current NAV per share, and do not represent the returns you would receive if you traded shares at other times. NAVs are calculated using prices as of 4:00 PM Eastern Time. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.

Since the Fund’s shares did not trade in the secondary market until several days after the Fund’s inception, for the period from inception to the first day of secondary market trading in Shares, the NAV of the Fund is used to calculate market returns.
