SOLACTIVE WIND ENERGY INDEX

SELECTION

- The index is designed to track the performance of companies that have significant exposure to the field of wind energy technology.
- Companies may be involved in the following "Wind Energy Activities":
 - Wind Energy Systems
 - Wind Power Production
 - Wind Energy Technology
 - Wind Power Integration and Maintenance
- Each company is classified as follows according to the extent to which it generates revenues from Wind Energy Activities:
 - Pure-Play: Derives at least 50% of revenue from Wind Energy Activities.
 - Pre-Revenue: Has primary business operations in Wind Energy Activities but does not currently generate revenue.
- The maximum number of constituents is 50.
- All constituents must comply with UN Global Compact principles.
- If there are fewer than 25 index components after all Pure-Plays have been included, Pre-Revenue Companies are added until the index reaches 25 constituents.

SELECTION POOL

- Eligible companies must have:
 - Share Class Market Capitalization of \$200 million if they are not current constituents and \$160 million if they are current constituents.
 - Average Daily Value Traded of at least \$2 million over the last six months and \$1.4 million for existing constituents.
 - Primary listing in a Developed Market or Emerging Market (excluding India).
 - Traded on 90% of the eligible trading days for the previous 6 months.
 - Free Float percentage of total shares outstanding of at least 10% or a minimum Free Float Market Capitalization of \$1 billion.

WEIGHTING SCHEME

- Index components are weighted according to their Free Float Market Capitalization:
 - Each component is subject to maximum weight of 12% and a minimum weight of 0.3%.
 - The aggregate weight of companies weighted above 4.5% cannot exceed 45% of the index weight. The remaining companies are capped at 4.5%.
 - The aggregate weight of Pre-Revenue companies cannot exceed 10% of the index weight, and the maximum weight of a Pre-Revenue companies is 2%.

REBALANCES/REVIEWS

- The index follows a semi-annual rebalancing schedule, made on second Friday of May and November each year, at the close of business.
- The index follows a semi-annual review -- if the aggregate index weight of Pre-Revenue index components exceeds 20%, then the index is reweighted to cap it at 18% on the second Friday of February and August.

*For the complete and current index methodology please refer to the index provider's website. This summary document is accurate as of the time of its publication and Global X does not guarantee that it is current at any point thereafter.

The selection of the index constituents and their weighting is made by the index provider at its sole discretion.

Carefully consider the fund's investment objectives, risks, and charges and expenses. This and other information can be found in the fund's full or summary prospectus, which may be obtained by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. The investable universe of companies in which WNDY may invest may be limited. Narrowly focused investments will be more susceptible to factors affecting that sector and subject to more volatility. Wind energy companies may be highly dependent upon government subsidies, contracts with government entities, and the successful development of new and proprietary technologies. Seasonal weather conditions, fluctuations in the supply of and demand for energy products, changes in energy prices, and international political events may cause fluctuations in the performance of such companies. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from social, economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. WNDY is non-diversified.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
